## **Acknowledgements**

Many Gavilan employees contributed to the survey design, implementation, data entry, and translation. Members of the Accreditation Task Force providing input on survey design. Bea Lawn provided translation services. Angie Oropeza and Dale providing data input assistance. Ken Wagman and Jane Harmon provided coordination of these efforts.

## **Introduction**

In Fall of 2005, Gavilan Community College conducted a series of surveys of students and employees to inform its Accreditation Self Study. This report provides results of those surveys showing first the student survey data then the employee data. For best effect, this report should be reviewed in conjunction with previous accreditation and campus climate surveys.

## **Student Survey Methods**

A total of 565 students responded to this survey administered to randomly selected classes in Fall 2005. Supplemental surveying of 113 ESL students and 23 online students in randomly selected classes also occurred to ensure proper representation of all student constituencies. Respondent characteristics of the primary survey were generally similar to overall college demographics with the exception that respondents appears more likely to be full time students that would be expected if students rather than classes were selected randomly. The following pages show results from the primary survey and include student responses to statements with which they were asked to rate their level of agreement. Also included are open responses from students taken from both primary and supplemental surveys.

## Student Agreements with Statements

This table combines the responses of “Neutral” and “No Opinion” and omits responses of “Not Applicable”. A factor analysis confirmed that similar statements received similar responses strengthening confidence that respondents gave statements due consideration.

## Student Comments

Many comments centered on improvements the college could make to its facilities, academic offerings, and student services. For facilities, comments included improving lighting and restrooms, more comfortable seating, updated computer equipment, wireless access, and general comments about facilities upgrades. Many respondents indicated they desired more courses to be offered online, in the evening, and at satellite sites in addition to providing a greater variety of support transfer students or particular programs. A number of respondents also indicated the value of online services such as registration, book purchasing, and grade checking. Some students expressed frustration at getting accurate information from personnel or from online sources. These comments have been only lightly edited to correct typos during data input and to anonymize personally identifiable information. Comments have been separated by language with comments in Spanish beginning with comment 213.

#	Comment
1	Add more online classes; offer courses at more times and days. The schedule makes it hard to plan for work. I had to quit my job which I love because of the class schedules. Offer more courses in Hollister- night and day.
2	Attention to inner workings of Liberal Arts department is suggested by this student. The attention spent in insuring online class schedules are maintained and the actions of certain instructors appear to be minimal at best.
3	Aviation Dept. needs more money for materials we need new soda and snack machines we need comfortable seats.
4	A few counselors are horrible!
5	Better and more informed counselors.
6	Better classrooms and temperatures inside classrooms more online courses.
7	Better desks at the Gavilan aviation technician center, new soda and candy machine more materials.
8	Better lighting needed in Cosmo Department. Color is very important.
9	Better parking for the aviation department better snack and soda machines more funding for the program from the main campus.
10	Better tutors I think math tutors are needed. ASB isn't friendly or spirited. The people I met and also the ASB staff leaders were very rude!
11	Building should be upgraded.
12	Cafeteria is cold please solve the problem. Thank you.
13	Campus is very well run by individuals who make themselves accessible. To all and project

	a truly caring atmosphere especially the Business EOPS and Computer Science Depts.
14	Campus needs more technology at individual class sites. Maybe 1 computer per class. Broadband wireless would be nice. More lights at night emergency phones. Student Center should have more options like San Jose State- food court.
15	Cheaper books more night classes in Morgan Hill. Monorail from the different campus.
16	Class Heat!
17	Classrooms are old fashion and toilets are also old and small.
18	Coffee vending machines @ Hollister need more upper level math transferable to State - Colleges convenient at night library access
19	Counseling requirement to students. More early morning classes for Summer.
20	Counselors are kind of rushed. It is hard to make an appointment or see them right away you have to wait a long time. Counselors should be more understanding and compassionate.
21	Counselors should be able to provide more advice and have more knowledge for transfer students. The Mesa Center should accept people despite their financial situation.
22	Counselors should become more available and informed about how to help students instead of making the whole process rushed. Encourage student to be involved in more activities create spirit as well as to decide schedules or what sort of classes to take.
23	Counselors should pay more attention to what the students want. I find most of them want to give me information I don't want or need to take. They should be better trained for the job. Online classes should be maintained more often.
24	Don't give us so many options in these surveys i.e. strongly & somewhat disagree and strongly & somewhat and other.
25	ESL computer classes for Gilroy & Hollister & Morgan Hill campus.
26	Ethnic question is of none importance to anyone.
27	Evaluating the college is difficult because there is so much difference between each department. The math department is excellent with helpful tutors structured classes and superb instructors. Other departments aren't as good.
28	Every teacher I have met here is very good very helpful and easy to contact outside of class time.
29	Everything is about Latina this or Latino that - what about Blacks Whites & Asians for starters - its too centrally based on Hispanic culture.
30	Everything is great.
31	Everything is okay. This survey is too long.
32	Extend library hours into the evening - until 9:00 p.m. have more instructors teaching classes. Classes tend to fill out really fast.
33	Financial Aid dept should have more knowledgeable staff. Every time I go in to ask questions... it seems like no one knows the answer except X They also need to be a little more understanding with students. They need to make scholarships more avail
34	Gav is a very good community college with great teachers that are willing to work with you one on one. We should have more teachers like that.
35	Gavilan College needs too many things to improve and bring more attention to students because one time I studied here I didn't feel interested and I prefer to go to another school. That is why I think that this is not a good college.
36	Gavilan is a great school! However we need to lower the book prices some competition could do some good and it is stupid that adults 21 and over can't enjoy a beer with their

	lunch.
37	Gavilan is a really nice college! Pretty environment.
38	Gavilan is an okay campus. Survey is not required though.
39	Gavilan should offer more courses that are more challenging. Last semester I enrolled in second semester calculus and the class was cancelled.
40	Get better.
41	Get some better teachers some teachers know nothing of the subject they teach or at least that's what they show with their poor teaching skills.
42	Getting more online options and improving lighting and bathrooms on campus.
43	Gilroy campus is very old and run down. The grounds are messy and this makes the college very unappealing to new students.
44	Government should spend more financial investment to encourage student education. Instead of keep spending money on things not really necessary such as welfare. I think Gav should find a way for people to get a job instead of taking it out of our paycheck
45	Have a 2 year option for RN for people who are not interested in the step system of being CNA and LVN then RN. Have one that skips 1st 2nd steps. Cabrillo has this option and there is a huge waiting list.
46	Have more advanced classes available limited physics classes for transfer.
47	Hire more teachers and more custodians.
48	Hollister site needs to expand. I would like to see more classes offered more tutoring and counselors present.
49	Hope you can open computer class for students which one schedule for morning so we can learn more. Thank you
50	Hurry up and remodel our cosmetology department before I graduate.
51	I am taking some classes in this college but I saw some teachers in a nursing department they give a very discrimination and stressful for students. I feel very sad about this kind of staff. Thank you for this chance to write.
52	I don't get the point of doing this.
53	I got no suggestions but to get AJ 16- 18-19 hopefully some in the mornings.
54	I have been here for 8 semesters and I saw everything good but one time I went to the registration and the ladies who were there were very bad or in a bad mood.
55	I have been so thankful for the assistance and encouragement I have received from the staff at Gavilan. I feel well equipped to accept my academic goals. Thank you!
56	I have enjoyed attending this college for the past 5 semesters that I have been here. I live in Salinas and I am willing to make the 30 minute drive over the 10 minute drive to Hartnell College because this campus is so much better.
57	I have experienced numerous difficulties with the phone registration service. If you miss the dollar amount of tuition bill, you can't go back to find out the total.
58	I have had an overall good experience at Gavilan. Maybe offer more University//Transfer preparation and website access to grades registration requesting transcripts order books etc is highly recommended.
59	I love Gavilan. It has been an awesome experience. I feel very fortunate that Gavilan offers so many different programs especially child care. I wouldn't be able to attend school without the Child Care Development Center. It has been a God sent.
60	I love going to Gavilan College. The teachers I had are great and I'm looking forward to

	my next semester
61	I love to do stuff on the web I think it would be convenient to access my grades. Right now I have to come to the office. Love the counselors and teachers. Everyone really seems to care about the success of the students here. Love Morgan Hill Site also.
62	I think counselors should help more I was given inaccurate information so I have to correct it myself. They should listen more to the students needs and questions rather than making our minds up for us. But I love this College. I think the computer place is great.
63	I think everything is ok at Gavilan but one thing I don't like is the people who clean our classroom. They sometimes clean and some don't we don't have good air condition and I don't feel good like that. This happening on the ESL classrooms that is not fair. I hope you do something. Thank you for listening to us.
64	I think library should be open later.
65	I think some staff members have forgotten about its students.
66	I think that in all non transferable math classes the tests should not be worth a huge portion of your grade. All the students in these math classes are obviously bad at taking tests because they did bad on the placement test.
67	I think the library and tutoring/writing areas need to expanded. New seats would be nice in classrooms.
68	I think the school should be given extra money to update the classroom computers and that more classes should be offered online & in Hollister.
69	I think there is a little discrimination of race.
70	I think we should have more language courses offered.
71	I think we should paint Gavilan with new cool colors and also I would make surveys less boring and long.
72	I went to register this semester and one of the persons in the administration got mad because I didn't understand what she was saying. Finally she told me save all the problem. I'm taking ESL I think we need schedule books. I didn't get any book this semester.
73	I would like that the library close later. Also I think we should have a counselor in Hollister to choose our classes.
74	I would like the college provide more classes ESL after 563 because people that are learning English finish the class ESL 563 but it doesn't enough learning to go to regular classes. I think we need more practice until we are ready to go to regular classes because those classes are very difficult for Spanish people.
75	I would like the Hollister site to have more classes available more vending machines too.
76	I would like the restrooms in HU building will change because those restroom smell bad and are ugly is my opinion.
77	I would like there to be more sufficient courses to meet the requirements for computer science degree. I was bluntly scorned by a UCSC Representative for even attending Gavilan College while attempting my BS/MS due to lack of courses articulated/given.
78	I would like to have more teachers for ESL classes and more material for them.
79	I would like to see improvements with Gavilan's web site and online services with available class times including night classes and with the music and language departments. Only Spanish and Japanese are available and half the pianos in the piano class aren't good.
80	I would like to see more online classes. More classes at the Hollister site.
81	I would love to have more online courses available. Also for student loans I must go to orientation each year it should be offered at times that work. Instead of only @ 2pm ti

	should be offered @ other times.
82	I would suggest putting wireless internet through the whole school. Update all the computers to the latest models edit some of the classrooms.
83	Improve on maintenance and definitely a bigger parking lot.
84	Improve registration for phone use have purchases of books be paid online and have people sign up online for classes to make things easier. Overall Gavilan is a very good school w/good teachers.
85	Improve security with video cameras and more lighting more security presence. Improve access to campus via bus- longer schedules wi.l improve evening attendance and ability to participate in on campus events. More technology in classrooms
86	Increase selection of classes and class schedules at Briggs in Hollister.
87	Instructor X rules!
88	Is a perfect school. But I think need more people to help students how you can improve your goal and need a lot of maintenance.
89	It is important that this college have teachers who have the patience to explain very well to the students something that they don't understand give more extra help to them.
90	It was too long and pointless. I don't think it really emphasizes the academic needs.
91	Keep aviation school going comfortable chairs more money for?
92	Keep the building cleaner-there are ants everywhere! Also it would be nice if you made the books less expensive.
93	Keep up the good work.
94	Larger space for cosmetology programs and newer appliances.
95	Library should stay open past 6p.m. Parking lots should have more lighting and security cameras to prevent theft and make everyone feel safer.
96	Lighting in walkways at night. More security. More counselors available.
97	Lower prices per units. Have more info on transferring. More info on classes needed to finish major for another school.
98	Make books still available online at all times there should not be a deadline.
99	Make buying books online available @ all times no due etc.
100	Make stuff more available online and supply wireless
101	Make this shorter
102	Making the hours for cosmetology 9-3 so the students who have to be at work at 4 and work full-time can support themselves.
103	Minitab (statistical software) should also be available in the library.
104	More campus activities too quiet that means boring.
105	More class selections and days/times
106	More classes in the evening. I would like to set appointments with my counselor by internet and also see my grades.
107	More evening ESL classes or online ESL classes. A lot of people are interesting in. Not enough parking lot and it is expensive.
108	More foreign language classes.
109	More Hollister classes!
110	More info on using computers/printers on campus. Updates on school activities. Needs air conditioning.

111	More lighting throughout the campus at night. Online registration and payments.
112	More night time classes like Bio 1 Physiology Anatomy.
113	More of a variety of evening classes.
114	More online classes, better counseling situation, counselors at MH site....early evening classes, 5:00 would be ideal. Starting at 6:30 and not getting out until 9:50 is tough. Hopefully more classes at the MH site :)
115	More online classes. More nursing classes and pre-requisite nursing. Physiology in Fall or evenings. Chem 30B in Fall or evenings. More spaces in nursing program.
116	More P.E. classes and more world/ancient history
117	More parking!
118	More secure grounds at night. Friend got car stolen from parking lot. Most teachers generally care but Mr. Moore Sociology 1A. I'm not very satisfied with his ways of teaching.
119	More security and cleaner classrooms.
120	More student activities & internet accessible class web pages to sate assignments due dates and test dates.
121	More transfer days as possible. I feel many students out there do not know transfer information and many students take classes that they dont even need for their AA.
122	Most services are adequate.
123	Mount projectors on ceilings. Better lighting on Gav campus front/main entrance to Gav campus. Better copy machine at M.H. Gav campus! Better prices at bookstore.
124	Ms. X rocks! She is a great instructor
125	Need more campus activities it's kind of boring. We need more people working in the tutoring Math Lab.
126	Needs more new technology
127	None just keep up the good work.
128	Nope it's pretty cool to me.
129	Not really just better classrooms.
130	Offer evening & afternoon classes in the summer semesters. Offer more foreign languages such as French - Portuguese- Italian- Chinese & Russian. Have a bigger Admissions Office or multiple sites for registration times so the main one in Gilroy won't be so crowded.
131	Offer more classes at Hollister campus.
132	Offer more classes during the day e.g. chemistry.
133	Offer more classes in the evenings and online because this can help us a lot.
134	Offer more courses diverse in subject.
135	Offer more day and evening classes.
136	On the survey change ethnicity category for white to caucasian. It's more professional.
137	Online access to our transcripts- grades-schedule and being able to take care of fees and registration online would be super convenient.
138	Overhead projectors in classrooms. More online classes.
141	Pay more attention and provide all the support required by the AMT courses at Hollister Airport.
142	Perhaps offer a wider variety of AJ classes or perhaps a community relations for law enforcement or maybe a Spanish for law enforcement. I have also had trouble finding

	certain papers in English. And my truck has been broken into before & I am worried about safety.
147	Possibly more activities for students to know about.
148	Provide classrooms with overhead projector. Please also provide instructor with good quality copier.
151	Provide more help to high school students during their first year in college.
152	Provide tutoring in Hollister. More physics tutors. I suggest having more recycling cans. Keeping library open longer and earlier. Providing bathroom hand dryers. Thank you.
153	Put projectors on ceiling more high tech rooms comfortable chairs.
154	Question 66 needs to be changed. White is a not an ethnicity it is a color. The correct term is Caucasian and if you're a Caucasian you're not Hispanic the non-Hispanic part is unnecessary.
155	Re-build this college!
156	Some of the teachers need an attitude change.
157	Stupid survey what's the point?
158	Survey too long.
159	Teach your people in admissions some people skills!
160	Thank you Dr. X
161	Thanks for dropping the engineering program from under my feet now I get to find some other place to take them and hope that my classes transfer.
162	That this need to be more efficient class.
163	The AJ dept definitely needs better equipment i.e. new copy machine and new computers. in fact the whole campus needs new computers.
164	The bathrooms by the theatre buildings need improvement and the cost of books needs to go down dramatically.
165	The bathrooms need to smell nicer and look cleaner.
166	The building is too old. Teacher of X is very icky and contradictory in many aspects. She really needs to be more nice.
167	The cafeteria has no variety of food the same food since I could remember and very pricey for a student on a budget. Also the library should be open on Fridays until 6 not 2 also on the weekend.
168	The college needs to go more high tech. We seem behind compared to many similar colleges. We also need to offer more online classes especially for working people. Computer labs need to have similar software on at least some of the computers.
169	The food from the cafe is too expensive. I would like the ASB to provide more activities for us. Also for people with disabilities that need glasses- wheel chairs and all that stuff. I would like to see Gavilan provide them with their needs.
170	The Gavilan aviation program is excellent and well respected in the aviation field. It provides life long skills to young people who don't understand the value of education. However it needs to be better supported by the college and by administrators.
171	The Gavilan College nursing program should allow for more students to be accepted into the LVN Program. Nurses are in demand and its ridiculous for them to only accept 25.
172	The library should be open later for working students.
173	The public telephones are not very visible they are hidden next to buildings. At night there is not enough lighting. Not everyone has a cellular phone.

174	The school doesn't offer many male sports. I know we are in a small college but if maybe you brought in things like rugby could be played on any field only need about 15+ athletes or swimming swim at the Morgan Hill Aquatic Center or some other local pool.
175	The school needs more funding for teachers and materials.
176	The school needs more student activities during the day.
177	The survey is too long! Some questions are irrelevant and I don't think it will make a difference in this school. It is fine the way it is. No one is complaining. Do you really need to know #57? and #63?
178	The survey is very long but I think it will help the college. I think that the questions are good.
179	The teachers have extreme liberal bias. There needs to be a middle ground on politics when it comes to education. Also Bio 5 needs to be offered both Spring and Fall. I am disappointed with counseling guidance they are really no help at all.
180	There is absolutely no spirit at this school that promotes the acceleration of education. When talking to other individuals about attending a 4 year school another community college or Gavilan. I always tell them that Gavilan should be their last choice.
181	There is only one staff member in the computer center. Perhaps two would be a lot more effective.
182	There should be more openings for the LVN & RN programs.
183	These are truthful answers.
184	They need to fix the classrooms all the seats are coming off.
185	They take advantage of their authority when they feel like and some of the staff whom I have worked with over summer didn't do a thing until half way into the production which made the actors look bad because things were done too late.
186	This is a great instructor and I've learned a lot from him.
187	This online class was great, everything was very clear and easy to follow. The instructor really did do a great job with explaining the lessons and everything.
188	This survey is too long.
189	This survey is too long. I'm not sure of the point of the survey.
190	To have more classes online or more biology classes that are not crowded.
191	To make more parking lots because by 9 o'clock there is no more space.
192	To offer more Winter and Summer classes in Hollister.
193	Too long.
194	Updates on many AA/AS programs classes such as CSIS networking get replace with new classes to satisfy older classes yet updates are not given on the requirements to gain certificate. Online registration would be great.
195	Very good school.
196	We can get a season bus pass from Gavilan like other University does.
197	We need a better and healthy cafeteria.
198	We need more counselors. Every time I've needed to meet with one there is a wait and the counselors seem like they are in a hurry to get through the visit. and once they wouldn't help me do a plan because it would take up too much time! Isn't that what they are supposed to do?
199	We need nice classroom projectors and good copier machines in the Morgan Hill site not to mention the chairs they are in very bad condition. Should listen to instructors since they

	are the ones that know what the college needs.
200	We should have shorter class periods. Math lab should be open in the afternoon; after two as well. Should have more math tutors especially statistics.
201	Web site needs to improve. Should be able to check grades transcripts online. Also there needs to be more info about transferring to a 4 year college - the process.
202	Well just to keep the good job.
203	What's the point of this survey. While filling out this survey form I felt somehow uncomfortable. i felt uncomfortable answering questions #64 and #66. I'm just a human being. I do not like being ethnically labeled because I believe in equality.
204	Wireless internet access covering the whole campus would be convenient.
205	Wireless internet access would be nice to have. Enforce the rule about being quiet in the library so that you can do some work. Gav should be a place for earning not a place just to socialize and use my space in the library.
206	Wireless internet on campus. Schedule and other features on the web. Provide college e-mail addresses for students johndoe@gavilan.edu
207	Would like to see expanded library hours more class options- courses with more scheduling choices.
208	Would offer more times for the courses. More online classes. Offering counseling at Morgan Hill Site.
209	YEAH stop messing up my freaking schedule at the beginning of the year!!!!!!!!!!!!!! and have more online stuff for people with phobias of other people and the outdoors
210	Yes Gavilan College needs to consider those remaining vocational programs. As hey are directly involved with a knowledge that is readily applicable. Practically the aviation maintenance technology AMT program with excellent broad spectrum of a career options.
211	Yes I just want to tell you some of classroom don't have heater and we can't study well with cold temperature.
212	Yes I would like that the teachers have more patient with many students because not all students have the some capacity for to learn English. I didn't went to school in my country. Is very important that every teacher help to students.
213	Con el horario yo que dejan una hora y uon pierde tiempo.
214	Deferia haser mas profesores tasa que no haya tanto estudeante en la clases.
215	Estoy muy contenta en esta escuela porque ayudan mucho prender y tienen mucho paciencia para nosotros que no sabemos nada de ingres gracias por toda la lluda.
216	Gavialn College tiene muy buenos maestros en clases de ESL por que me an ayudado mucho en mejorar como hablar y escribir engles.
217	Gracias por darnos la oportunidad de alcernzar nuestras metas.
218	Gracias por la ayuda que nos brindan a nosotros los Hispanos y personas mayores. Gracias
219	Me gustaria Gavilan College tubiera mas oportunidades para que nos ayudaran con el cuiderdo de ninos para poder estudiar mas tiempo.
220	Me gustaria q' las clases de ESL fueran de horario corrido.
221	Me gustaria que los alumnos de las clases de la tarde tuvieran las mismas oportunideades de la manana o sea que el area computadoras estuviera disponible para los alumnos y sus clases fueran de toda la semana.
222	Me gustariaque dieran a lluda a las personas que piensan que no a prenden facil.
223	Me gustoria que nos enseñaran mas horas.

224	My comentario es que es una muy buena escuela y dan muchas oportunidades a personas con baja ingresos.
225	No pues mi opinion es la siguientes pienso que todo esta muy bien enseñan muy bien pero son muy pocas horas de clase me gustaria que obiera mas tiempo en clase que durara mas la clase.
226	No todo me parece vien en sierta forma.
227	Para mi el programa me ha ayudado a improvisar el idioma Engles pero se deberia de reacomodar ESL clases en las tardes o de noche porque cientos de personas que por el horario de trabajo no pueden ir a tomar sus clases hasta donde yo se solo se toman 510B or 510A no estoy seguro pero is muy minima la cantidad de Engles que se esta impartiendo por las tardes gracias por tomarnos en cuenta.
228	Por el monto ninguna y agradecerle por la ayuda recibida.
229	Que el gobierno ayude en el presupuesto para que todas tengamos mas facilidad para estudiar.
230	Que nos pudieran ayudar a las personas que tenemos dificultad para aprender mas el ingles y ponernos un poc mas de atencion.
231	Que pongan letreros en los pasillos para saber donde estan los salones.
232	Que si pueden tener los banos mas limpios y si pueden arreglar el calenton en el aula LI 100. Gracias
233	Queiro ayuda para aprendr a comunicar me elle/trabaja con los demas mas atencion con los que no sabemos gracias.
234	Seria bueno que a les explicara mas acerca de educacion en los deportes artes y diferentes tipos de actividades como la danza y en lo cultural. Gracias.
235	Si mas seguridad en los par queaderos por que hay muchos que le pegan a los corros de las demas.
236	Solo darles las gracias por alludarnos y tamuien me gustaria que cuando uno se inscribe le pregunten si nesecita ayuda con un consejero.
237	Tener consejeros apredizaje en los horarios.
238	Yo en lo personal me gustaria diera mas informacion acerca de las clases que por internet se otorgan.
