

PHLEBOTOMY FOR MEDICAL PROFESSIONALS

Gavilan College is now offering this exciting program in partnership with Boston Reed College

Summary: The Phlebotomy for Medical Professionals Course is designed to provide instruction in the art of drawing blood.

Topics: Students will become proficient in venipuncture with syringe, vacutainer, butterfly and finger stick methods built upon a foundation of basic principles of venous anatomy, physiology and sterile techniques.

Instructional Format: 16 hours of classroom instruction over a two consecutive days.

Course Fee: \$449

Prerequisites: This course is for current Medical Assistants, Emergency Medical Technicians, Vocational Nurses, Registered Nurses and Medical Doctors who use, or plan to use phlebotomy skills within their scope of practice.

This course does not qualify a student for certification in the State of California.
