

## Connecting Your MiFi Mobile Hotspot: CoolPad

1. Hold the OFF/ON button down for 3 seconds to power the device on/off.

**Signal** displays your current network status.

Green light indicated good network connection;  
yellow light indicates poor network connection;  
red light indicates no network connection or service.

**Wi-Fi** indicates when Wi-Fi is connected. If this light does not come on at top of device for 3 seconds to activate.

**Battery** displays your current battery status. When a solid red light indicates the battery level is less than 15%, please charge battery.

Open the wifi application or controls on your computer or wifi enabled device (see handout for connecting your laptop) and find the wifi connection, which should match the SSIS name on the back of the device.

Connect to the computer and when prompted, enter the password, also listed on back of device.

**For Additional Help:** If you have trouble with your equipment or have other questions, contact Tara Myers from the library staff, [tmyers@gavilan.edu](mailto:tmyers@gavilan.edu) or call **(408) 840-4873**.

**Need a Tech Buddy?** If you or someone you know would like to be paired with another student who can help you learn how to use technology, complete this short request form and a Gavilan representative from the Tech Buddy program will contact you: <http://bit.ly/gavtechhelp>. If you have questions about this program, call (831) 205-1895.
