1st Year Experience

Strengthen **READING** and **WRITING** skills in a supportive environment.

Starting your first semester at Gavilan? College can be confusing and overwhelming, and many students don't know where they can go to get help. Now Gavilan offers a program for new students who want to strengthen their reading, writing and study skills and become familiar with the campus and its resources. Teachers in the program will be working together so you will find many connections between the courses. With First-Year Experience, you'll build a strong foundation for your college classes and start on your road to success.

The Program: Students will take reading, writing and guidance together because these skills are needed to succeed in college classes. Students will be encouraged to take the next level of English and guidance courses in Spring 2007.

& Indiana University

In a quandary?

- ◆ You love California and wouldn't dream of leaving.
- ◆ You're earning your associate degree and want to go on for a bachelor's.
- ◆ You'd attend a four-year college but can't just pull up stakes.
- ◆ You've thought about an online degree but worry about "diploma mills."

Want it all? It's yours with 90 ► 30

Gavilan College and Indiana University have joined forces so that you can earn a bachelor's degree from the country's "**Hottest Big State School**" without leaving home!

- ◆ Stay with your job, family and friends in Santa Clara and San Benito Counties.
- ◆ Pay Indiana **in-state** tuition.
- ◆ Start your bachelor's degree when **your** schedule permits, and work at **your** own pace.

What's 90 ► 30? Here's how it works:

1. You earn 60 transferable semester hours of credit at Gavilan College and receive your associate degree.
2. Apply for admission to IU and, once admitted, complete an additional 30 transferable credits at Gavilan.
3. Take your final 30 credits of upper-division courses via distance education at Indiana University, and join the thousands of students worldwide who have earned an IU Bachelor of General Studies.

Why a midwestern university?

Known as one of the country's "most wired" universities, **Indiana University** is a fully accredited, Big Ten university.

Time magazine named IU its "**College of the Year**" in 2001, and *Newsweek* magazine chose IU as its "**Hottest Big State School**" in fall 2005
