Hi Ryan,

I have a quote for u. The cost for Dj will be \$400. I have a min of 3 hour for dj services. Even if u only need services for 2.  
For the booth, its \$200 per hour. min of 2 hours. Since your requesting for the min. The cost of the booth will be \$400. That includes unlimited photos. The photo booth works great indoors. But if we need to setup outdoors, there will be another setup fee of \$50. The outdoor fee is to cover any damages due to outdoor weather. Also there will be a \$100 fee for the W-9 form, that is to cover my taxes at the end of the year. So total amount for the event will be \$950.

Dj Cost - \$400  
Photobooth Cost - \$400  
Outdoor setup fee - \$50  
W-9 Form fee - \$100  
Total - \$950

If you have any questions, feel free to email me or contact me at (831) 537-7866.

Thank you

Tomas Carrillo (Dj Tomas)
