ABOUT ME

I was originally a Sociology major because I wanted to become a Social Worker. However, in my second semester, I changed my focus to becoming an Elementary School Teacher instead. Overtime, I realized that the subject I was most passionate about was Mathematics, so I decided to specialize in teaching that!

HOW I CAN HELP YOU AS A PEER MENTOR

As a CAP Peer Mentor, I can help you get connected to the support programs and resources on campus to help with your academic journey. I also host events to inform students on the career opportunities and resources out in the world.

MY ADVICE FOR YOU

My advice for you is to take advantage of the support programs on campus. It can help your time at Gavilan pass without any bumps along the way!
