## ABOUT ME

This is my 2nd year at Gavilan as an international student from Pakistan. I’m studying towards getting a career in software development. Once I’ve developed some familiarity with coding, I’d love to start working on a video game project in my spare time.

### HOW CAN I ASSIST YOU AS A PEER MENTOR

I’m here to assist with any questions or concerns you may have as a student. If I’m unable to directly help with an issue, I will gladly guide you to the right person or resource. As your peer mentor, I’ll work alongside you to find the answers you need.

You can feel comfortable reaching out to me for support with things like registration, financial aid applications, scheduling counseling appointments, or filling out and submitting forms to various departments.

### MY ADVICE FOR YOU

Whether it’s professors, peers, or campus resources, don’t hesitate to reach out for help when you need it. Asking for assistance shows strength, not weakness, and there’s no need to go through challenges alone.

### PERSONAL INTERESTS

I like to play video games in my free time. Specially, the more competitive multiplayer games.

I enjoy watching Political or Philosophical debates. Its a fun critical thinking exercise, specially the informal debates are much more entertaining.

Exploring new places with my friends and getting introduced to different aspects of life in America that are new to me.

I like watching various genres of movies and TV shows. Watching horror/thriller with my friends is very exciting
